PROJECTS

• PORTFOLIO

In my portfolio design, I strive to create a modern and sleek website that is visually appealing and user-friendly. By utilizing HTML, CSS, and JavaScript, I am able to create a responsive and interactive experience for visitors. The design is innovative and dynamic, with seamless navigation and intuitive features. I prioritize customization, allowing clients to showcase their unique style and personality. The website is efficient and well-organized.

• RESTAURANT WEBSITE

Welcome to our restaurant's website, designed using the API design by React JS. Our goal is to provide you with a seamless and enjoyable dining experience, both online and in-person. With the help of React JS, we have created a dynamic and interactive website that allows you to explore our menu. Our API integration ensures that all the information you see on our website, from menu items to availability, is always up-to-date. Whether you're browsing on your desktop or mobile device, our responsive design ensures a smooth and user-friendly experience.

ABILITIES

Punctual, Adaptability, Team Player , Polite Nature, Active Listener, Priority to work

DECLARATION

I declare that the information provided above is true
to the best of my knowledge
